

# **Act IV**

## **Changing The Name of Modest Island**

### **Reasons For the Act**

The name of Modest Island was originally suggested as a joke by a former member of the Empire. However, considering that it was the best of the other options, I then chose that as the name for our Capital.

Now, it seems rather improper for the name of our Capital to be derived from a joke, so I believe that it is for the best that we change the name.

### **What the Act Entails**

1. This jurisdiction shall apply to Modest Island.
2. The name of Modest Island shall be officially changed to one of the following options:
  - Paåoma (based off the Finnish for 'capital')
  - Fundâstaðer (based off the Icelandic for 'meeting place')
  - Moteplåss/Moteplåss (based off the Norwegian for 'meeting place')
3. The members of Parliament and the Emperor are the only people voting.

### **Result**

Paåoma was selected, but an amendment from Big Cheese Lee to anglicise the names was upheld. The name was changed to Paaoma.
