

# Act XI

## Preferential Voting Referendum

1. This Act will be referred to as the *Preferential Voting Act 2016*.
2. This Act, if passed, will force a Referendum to be held within the Empire of Førvania, to decide on whether to change the system of voting in elections from first past the post to preferential.
3. This Act is being put before Parliament because the previous election, which decided our Prime Minister, was first past the post, and meant that the elected Prime Minister did not have a majority. This seems to be an unfair system, so we are attempting to change it.
